

Diversity, Equity, and Inclusion

Inherent in our values is our commitment to diversity, equity, and inclusion. We respect all peoples and cultures, value diversity and are committed to international education and mutual understanding. Moreover, we believe that our diversity is one of America's greatest soft power tools in this global struggle between democracy and authoritarianism.

We do not discriminate based on factors such as race, color, ethnicity, national origin, religion, sex, sexual orientation, age, ability, gender identity or expression, immigrant status, marital status, political affiliation, educational status, family responsibilities, socioeconomic status, demographic, and veteran status.

Restore the Fulbright Program at \$369.5 million for FY 2024

RECRUIT AND FUND DIVERSE AND REPRESENTATIVE CANDIDATES

When we invest in Fulbright, we help ensure that *all* Americans have a chance to serve as citizen diplomats abroad. Additional funding is directly tied to securing accommodations that make this flagship international exchange program accessible to all.

The Fulbright Association, representing over 400,000 alumni worldwide, asks our friends in Congress to support an appropriation of \$369.5 million for FY 2024, restoring funding to the 2010 level.

Thank you for supporting the Fulbright Program, America's flagship connection to the world.
